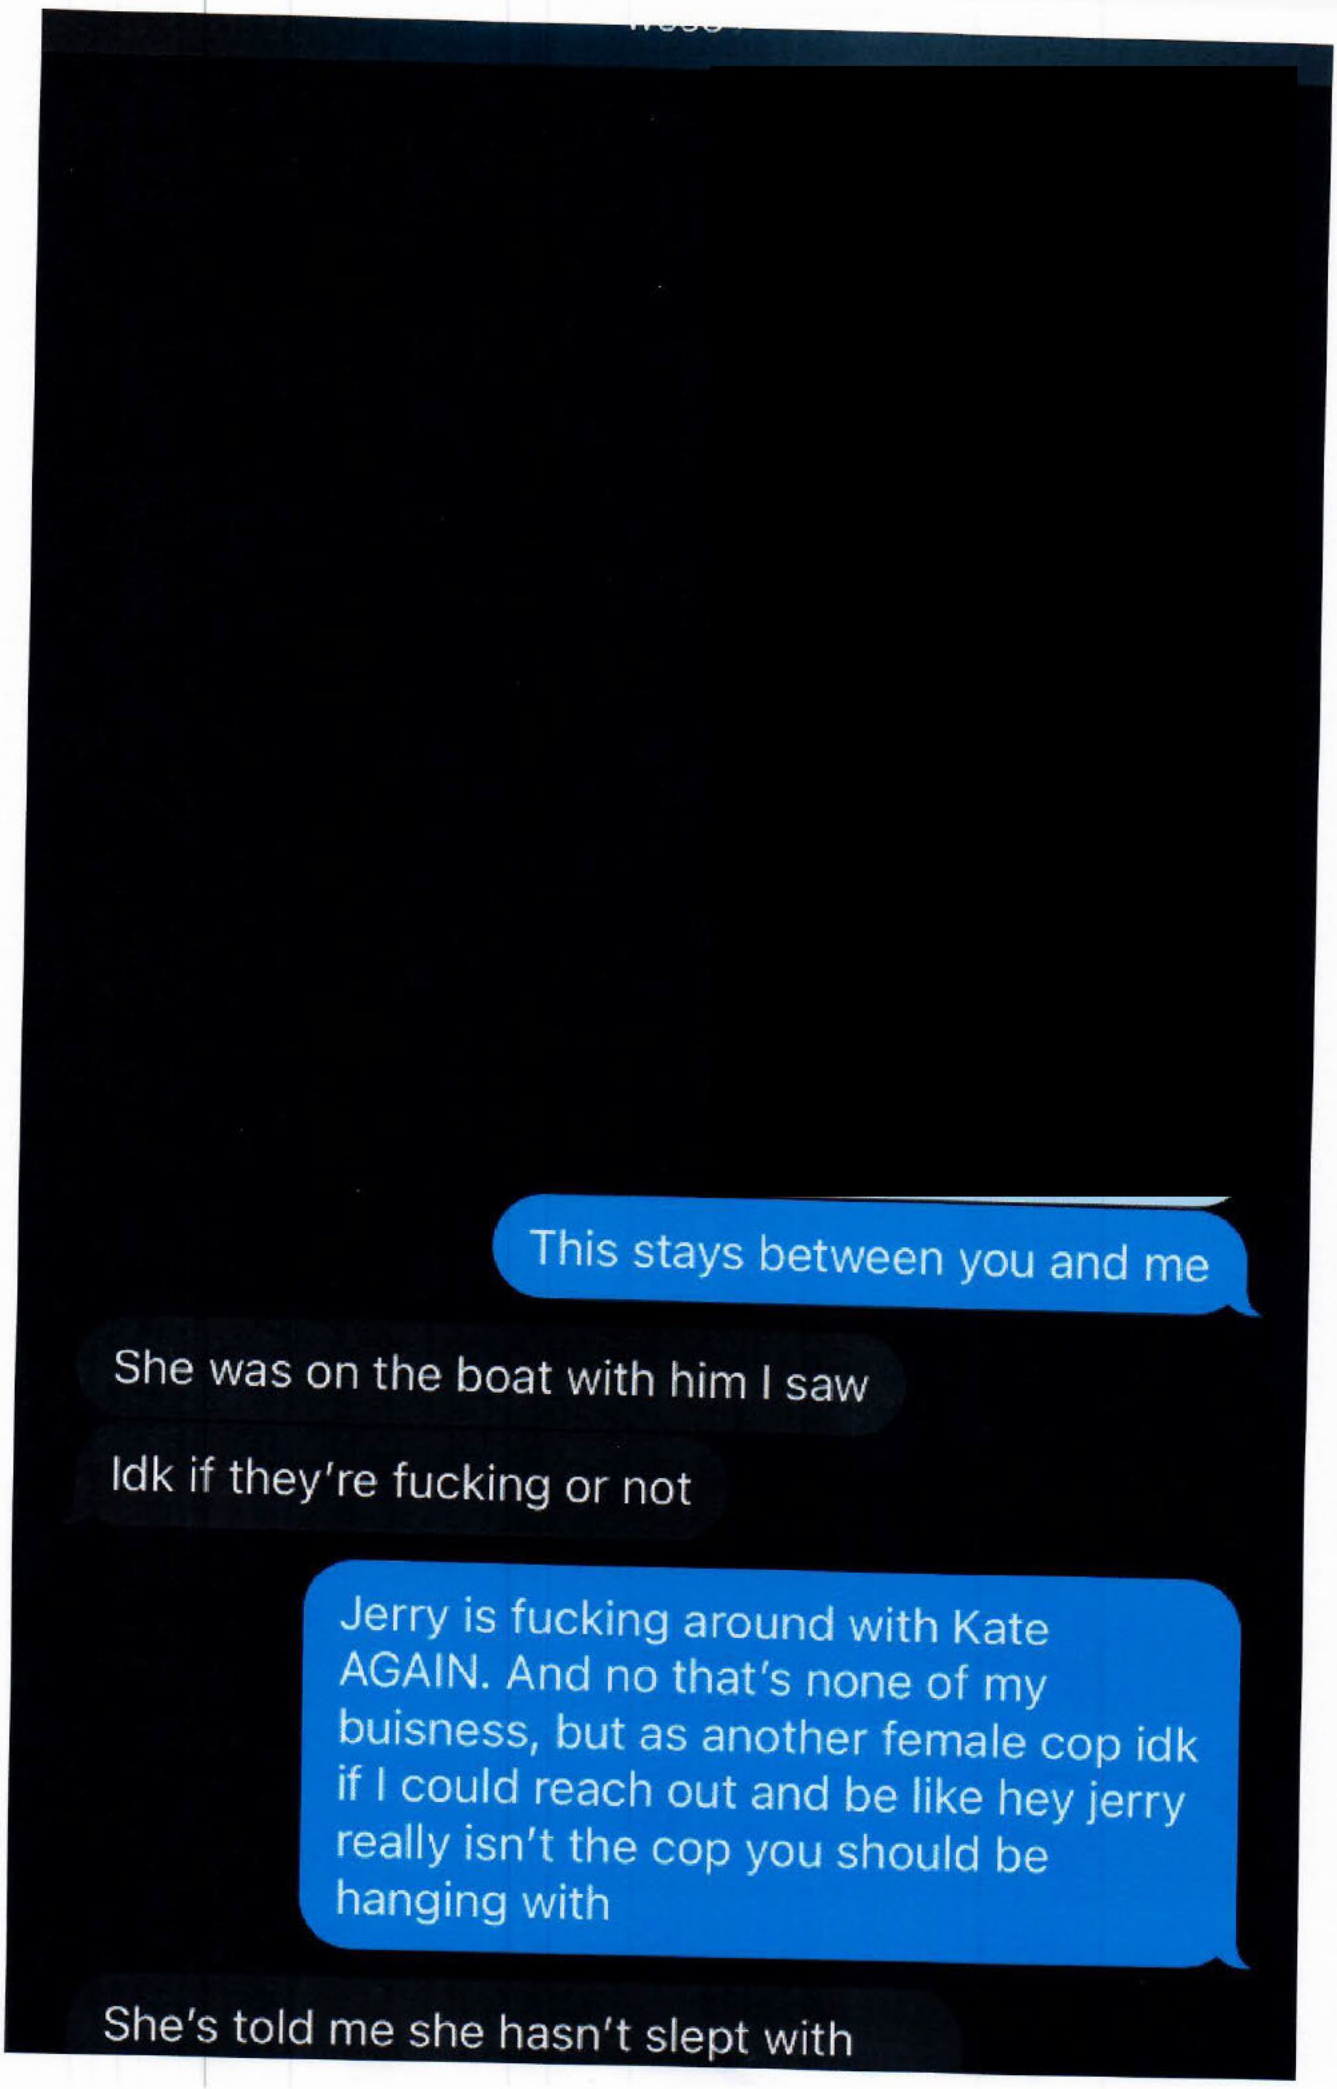
Ya girl Sutton is fucking up.

I remember when I first started Lewis sat me down and had a long conversation with me about fucking around with cops.

I didn't listen and believe me I wish I had.

A part of me wants to reach out to her and tell her hey, Jerry moschel is REALLY REALLY bad news, but a part of me just thinks she should learn.

Idk what's going on with them, I don't care, but jerry isn't good fucking company.



This stays between you and me
She was on the boat with him I saw
Idk if they're fucking or not
Jerry is fucking around with Kate AGAIN. And no that's none of my buisness, but as another female cop idk if I could reach out and be like hey jerry really isn't the cop you should be hanging with
She's told me she hasn't slept with

She's told me she hasn't slept with anyone since jerry like years ago. She so hung up on him, idk why

He stalks the fuck out of her and it's creepy.

He face timed her from an "unknown number" while we were out one night and said "guess it's date night you fucking whore" and I grabbed the phone and was like JERRYY?!?!? And he hung up real quick.

He fucks new girls weekly

He's always telling us about them

Bro I know. I tell her this.

She knows it too

Idk why she's stuck lol

She's scared. Jerry doesn't want anyone to have her and he sabotages every guy she talks to. It's sick, both of them.

But back to Sara .

Is it out of line for me to warn her?

Bc I actually like her.

I think she knows. Her best friend fucked Jerry
